

To whom this may concern

Labquality's External Quality Assurance Scheme services are produced since 1996 under functional SFSEN-ISO 9001:2000 system audited yearly by accredited certification body, Inspecta Sertifiointi Oy in Finland.

Labquality has the Certificate no 1462-04. The latest follow-up audit was performed 1.11.2007 by Inspecta Sertifiointi Oy and proved that the system complied with the requirements of SFS-ENISO 9001:2000 and the General Regulations ABC 200.

The criteria of the international guides ILAC-G13:2000 and ISO 43-1 are followed in the scheme procedures. Labquality will apply the accreditation by FINAS (Finnish Accreditation body) according to the standard ISO 17043, which will be the international accreditation standard for proficiency testing providers, as soon as the standard will be confirmed.

Labquality's clients and other interested parties are welcome to audit Labquality's quality management system.
